

NEW JERSEY

The September meeting was held at the Hackensack Fire Headquarters and hosted by Anthony Treeza and sponsored by James and Mark Colombo of Traffic Control Equipment Corporation.

Anthony Trezza opened the meeting by introducing Mark Colombo who when started his demonstration of the Econolite KFT 1800 Controller. Mark explained in detail all of the standard features and the additional features that could be added to the controller. There were many questions that were asked about this controller.

Mark then demonstrated the Microwave Sensors TC-20 Vehicle Detector. There were also many questions asked about the specification and the installation of this unit.

Mark thanked Russ Leaf, Section President for inviting him to the section meeting and Mark then invited everyone to lunch at Rudys Restaurant.

Russ Leaf thanked both Jim Colombo and Mark Colombo for the outstanding demonstration and for their generosity.
